👛 Open to Internships & Entry-Level Roles (Remote / Hyderabad)

PROFILE SUMMARY

AI-focused Computer Science student with hands-on experience building LLM-powered SaaS applications using Claude API, prompt engineering, and full-stack development. Skilled in rapid prototyping, researching emerging AI technologies, and creating production-ready AI tools. Passionate about Generative AI, automation systems, and modern web applications, with a proven track record of moving projects from concept to live deployment. Seeking internships in AI/ML Engineering, Generative AI, or Full-Stack AI Product Development.

TECHNICAL EXPERIENCE

AI Product Developer | Independent Projects

2025 – Present

- Built and successfully deployed 4+ AI-powered web applications combining Claude API, OpenAI, and Gemini, ensuring each is optimized with live URLs for production review.
- Applied advanced prompt engineering techniques to dynamically generate clean frontend UI components, secure backend workflows, and automated system architectures.
- Researched, tested, and integrated cutting-edge AI development systems (such as Cursor AI, Bolt.new, and Windsurf) to accelerate engineering velocity and development efficiency.

PROJECTS

CourseForge AI

- **GitHub:** github.com/ToshitSai/courseforge-ai
- AI-Powered Course Generation
- Developed an AI-powered platform that automatically generates complete course outlines, lessons, and quizzes from a single topic prompt. Reduced manual course creation effort by generating structured, ready-to-use learning content.

HireScope AI

- **GitHub:** github.com/ToshitSai/job-gem-grader
- AI-Based Recruitment & Candidate Evaluation System
- Built an AI-based recruitment system that analyzes resumes, portfolios, and coding profiles to generate hiring insights. Automated candidate evaluation and data collection, improving recruitment efficiency.

Startup Idea Validator

- **GitHub:** github.com/ToshitSai/ai-startup-idea-validator
- AI-Powered Market Research & Validation Tool
- Created an AI tool that assesses startup ideas based on market demand, competition, and business potential. Generated instant validation reports to support data-driven entrepreneurial decisions.

Personal Portfolio Website

- **GitHub:** github.com/ToshitSai/toshit-portfolio
- Professional Developer Portfolio & Project Showcase
- Designed and developed a professional portfolio website showcasing projects, skills, and achievements. Implemented a responsive interface with an integrated contact system for seamless communication.

EDUCATION

Bachelor of Technology (B.Tech) – Artificial Intelligence & Machine Learning (AIML)

NxtWave Institute of Advanced Technologies (NIAT), Chaitanya Deemed University
2025 – 2029 (2nd Year | Expected Graduation: 2029)

- Actively building AI-powered application portfolios alongside standard core computer science coursework.

TECHNICAL SKILLS

- **Programming Languages**
 - JavaScript
 - HTML5
 - CSS3
- **Artificial Intelligence & Machine Learning**
 - Generative AI
 - Prompt Engineering
 - Large Language Models (LLMs)
 - AI Application Development
 - AI Workflow Automation
- **Web Development**
 - Frontend Development
 - Responsive Web Design
 - Portfolio Website Development

CERTIFICATES

- Base44 Hackathon Participation Certificate
- Base44 App Development Workshop Certification
- Generative AI for Beginners Certification (Simplilearn)
- Internet of Things (IoT) Workshop Certification

TOOLS

- Visual Studio Code (VS Code)
- Git & GitHub
- Cursor AI
- ChatGPT
- Google Gemini
- Claude AI

SOFT SKILLS

- Problem Solving
- Communication
- Team Collaboration
- Critical Thinking
- Fast Learning Ability

INTERESTS

- Cricket
- Traveling
- Technology Exploration

PERSONAL DETAILS

- **Location:** Hyderabad, Telangana, India
- **Languages:** English, Telugu, Hindi
- **GitHub:** github.com/ToshitSai
- **Portfolio:** toshit-portfolio.vercel.app
